Reasons Why You Should Think Beyond the Workstation

Empower® 3 Chromatography Data Software (CDS) makes it easier than ever to keep up with growing laboratory demands. When deployed as an Enterprise, it delivers value and provides significant benefits that extend beyond the workstation to your laboratory and throughout your organization. Maximize laboratory productivity with enhanced communication and system availability with Empower Enterprise.

www.waters.com/Empower

MAXIMIZE EFFICIENCY

Improve laboratory productivity with enhanced communication and system availability.

Eliminate bottlenecks – no more waiting in line to use the same workstation.

Methods and reports remain consistent across all sites and time stamps are consistent on all reports across these sites.
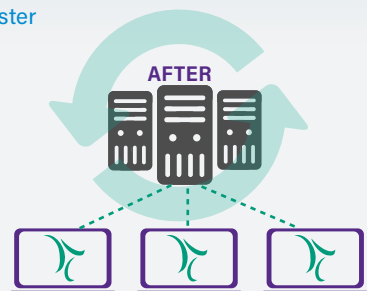

Remote access from desk/mobile devices.

BACK UP AND ARCHIVE DATA

Secure chromatographic data with automated disaster recovery backup and centralized data archive.
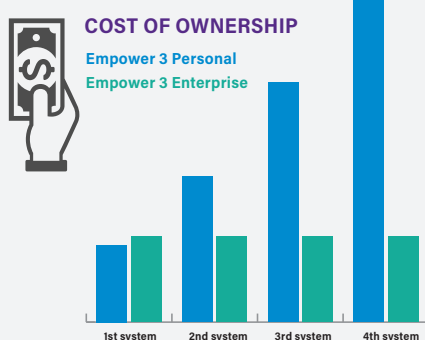

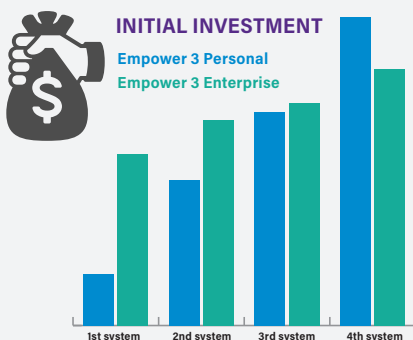

BEFORE

No more backing up individual workstations to 'discs'.

AFTER

Back up and archive from a single database on the Empower Server.

DEMONSTRATE VALUE

Lower initial investment costs and improve total cost of ownership.

INITIAL INVESTMENT
Empower 3 Personal
Empower 3 Enterprise

1st system	2nd system	3rd system	4th system

COST OF OWNERSHIP
Empower 3 Personal
Empower 3 Enterprise

1st system	2nd system	3rd system	4th system

MINIMIZE IT SUPPORT

Faster implementation, lower cost, and less risk with a CDS designed for the enterprise.

Only one system to manage; single management of users, permissions, policies.

Easily and cost effectively configure and validate your Empower Enterprise.

Reduces costs for future chromatographic system purchases and annual software support plans.

Rapid deployment across the Enterprise of feature release, service pack, and instrument driver updates.

IMPROVE DATA INTEGRITY

Increase compliance with electronic document and GxP regulations.

Standardize user group privileges and restrictions of functions.

Qualification can be executed remotely.

Data from all instruments is in one place when it's time for a regulatory audit, resulting in faster, simpler, confident, and stress-free audits.

Restricted access to the data files and the database on the server (except through the Empower 3 Software).
