

Automate Your Lab

With NuGenesis™ Lab Management System (LMS) you can:

- Simplify your lab workflows
- Accelerate decision-making
- Improve Compliance
- Maximize efficiency
- Easily connect with Empower™ Chromatography Data System (CDS)

Simplified Deployment: Updating Made Simple

Eliminate redundant entry of information

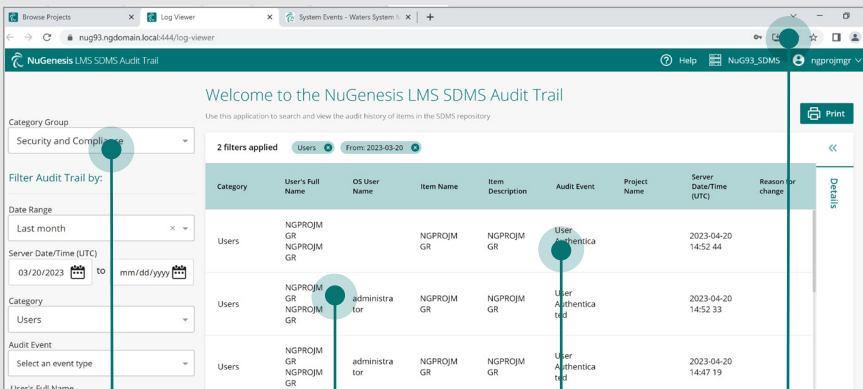

Easier installation: minimizing downtime

Connect with Empower Software to upload sample data and review results

Improved Audit Trail User Interface

Reduce manual recording and reviewing of audit trails by **90%**

Onsite audit time reduced by **80%**

140K fewer transcription errors per year

Going paperless eliminates **126 tons** of paper, enough to power **126** average homes for **6 months**

Easily find records with new search capabilities and web-platform

Easy-to-use, expandable panel display makes it easier to find the details you need

View results in configurable table grids and combine sample, result, and raw data in a single view

Modern user interface supports new browsers and web-based sample upload
